From Forest to Finished Piece

Brothers John and Marvin Fisher have taken their lifelong connection to the woods and transformed it into a thriving craft business with the opening of Unique Live Edge Tables' new showroom on Mayfield Road.

The Fishers grew up in Burton working alongside their father at Fisher Logging, the family business he founded in the late 1980s. After taking over the operation in 2019, the brothers expanded from land clearing and tree cutting into custom furniture making, using the very live edge slabs they harvested.

"When Marvin and I took over, we started experimenting with tables and furniture," John Fisher said. "That grew into a real passion, and when the chance came to purchase Unique Live Edge Tables, it felt like the perfect fit."

For the Fishers, every project begins in the woods. Partnering with craftsman Aiden Miller, of Farm View Woodcraft, they turn rough slabs into striking pieces of functional art. Each design is unique, reflecting the natural grain, edge and character of the wood.

"Live edge has become popular because no two pieces are alike," John Fisher said. "It works with almost any style — traditional, modern farmhouse, rustic or contemporary — and creates a durable heirloom that can last for generations."

Customers can bring in a photo, sketch or simply an idea, and the team will guide them through the process of designing and finishing a one-of-a-kind piece.

Unique Live Edge Tables, located at 8737 Mayfield Road, is now open Tuesday through Saturday from 9 a.m. to 4 p.m. After hours available by appointment.

DINING RIVER TABLES

**CUSTOM
ENGRAVING
ON LIVE EDGE
FURNITURE**

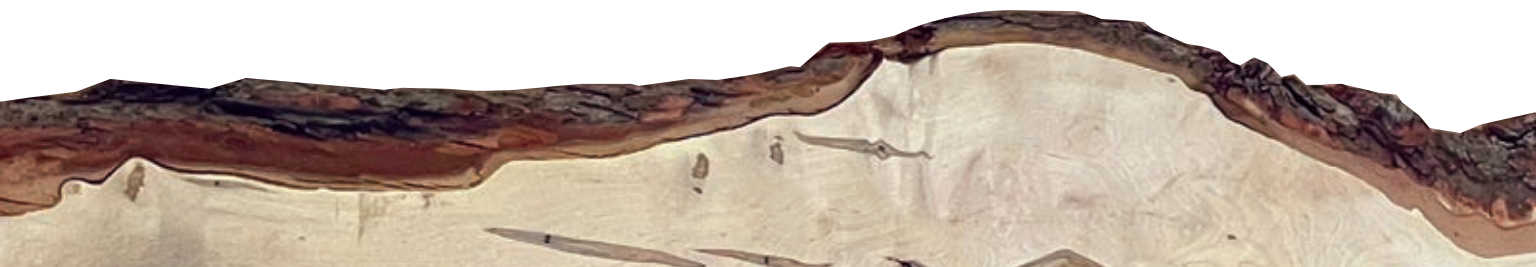

Endless Possibilities, Permanently Crafted

Every live edge piece tells a story—your story. Our custom engraving transforms solid wood into a personal statement, etched directly into the grain for a result that's as lasting as it is meaningful. From subtle details to bold expressions, engraving allows you to make each piece unmistakably yours.

Add names, dates, logos, coordinates, family crests, or original artwork. Choose minimalist line work or deep, dimensional carving. Whether commemorating a milestone, reinforcing a brand, or creating a one-of-a-kind heirloom, the possibilities are truly endless. Because when the material is timeless, the message should be too.

**YOUR VISION. OUR CRAFT.
LET'S BUILD IT TOGETHER.**

Where Nature Meets Authority

LIVE EDGE CONFERENCE TABLES

Redefine the room where decisions are made. Our live edge conference tables combine the raw beauty of solid wood with refined craftsmanship, creating a commanding centerpiece that sets the tone for collaboration, leadership, and vision.

Each table is built around a single slab or bookmatched pair, preserving the natural edge and character of the tree. Sized to fit your space and configured for modern functionality, these tables can seamlessly integrate power, data, and cable management—without compromising the organic aesthetic.

Custom engraving allows you to incorporate company logos, mission statements, or subtle brand marks directly into the surface, making your conference table not just furniture, but a physical representation of your organization's identity.

Strong lines. Natural edges. Built to lead the room.

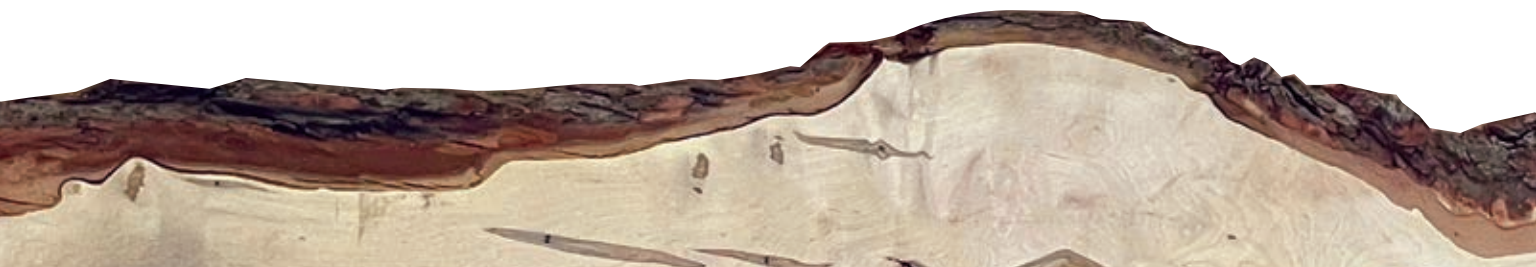

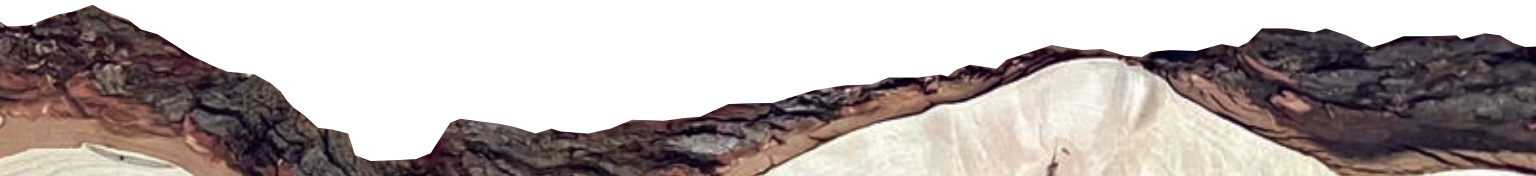

A PIECE ALL YOUR OWN

We offer an extensive selection of live edge slabs in a wide range of sizes and wood species, each chosen for its character, strength, and natural beauty.

From intimate accent pieces to statement-making conference tables, our inventory includes slabs to fit virtually any vision. Every piece is unique—defined by its grain, movement, and organic edge—ensuring no two projects are ever the same.
